

BiNDiCA
POLY PLAST

**Value Solutions PP /
HDPE / PPRC / PVC /
PVDF / FRP**

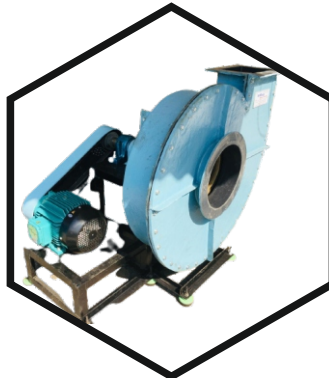

Our Products

- P.P / H.D.P.E Spiral Tank
- P.P / H.D.P.E Storage Tank
- P.P /H.D.P.E/ER.P Recreation Vessel
- Fume Exhaust & Scrubbing Systems
- Hoods

Chemical Process Plant Equipment

Ducting, Centrifugal Blower(0.5-50 HP)
Gratings, FRP Molded Articles

Our Service

- P.P /H.D.P.E/ER.P Recreation Vessel
- Anti Corrosive Lining on woodrn / Metal & RCC Surface

9766093313
9273142099

Factory: W-66/B, Lupin Chemical Road, M.I.D.C. Tarapur, Boisar

PP / FRP TANKS

Our range of FRP tanks are custom built in wide range of sizes and can be used to store various corrosive chemicals. We also provide reasonable solutions for water storage, chemical storage and storage of other liquid materials

VERTICAL / HORIZONTAL / RECTANGULAR TANKS

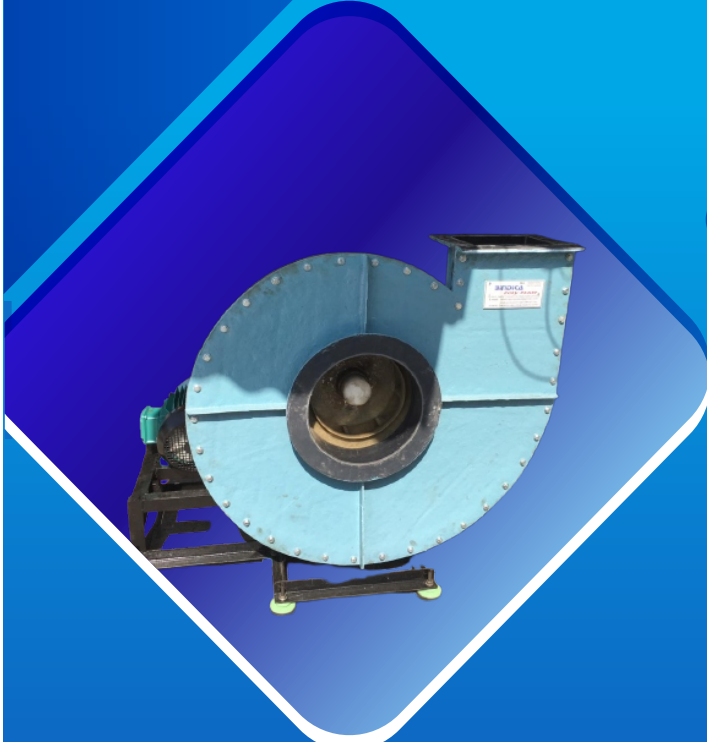

- › In-Built Nozzles
- › Very safe tank/
- › No bulging
- › Cleanable
- › No separate support structure
- › Very good life
- › Long Life
- › Suitable for Acids
- › Alkalis / Solvents
- › Very Good Strength
- › Light Weight
- › Hygienic

PP / HDPE/ FRP STIRRER

BPP manufactures PP Cladded Anchor Type Stirrer, which is used to manufacture any reaction vessel. To fabricate this stirrer, we make use of metal and line it with HDPE or P.P. We offer this vessel in numerous shapes and designs like anchor type and pedestal type. Customization of this stirrer can be done as per the specification provided by the clients.

PP-FRP CENTRIFUGAL BLOWERS & IMPELLER

We undertake complete projects for designing, manufacturing and installation of blowers in PP/FRP and other corrosion resistant grade. These PP-FRP Centrifugal Blowers are available in different capacities ranging from 300 CFM to 30,000 CFM. We also provide cost-effective customization of the blowers .

FUME HOODS

Selection of Suitable type & Size of Hood is very important to prevent, escape of fumes into the atmosphere, mainly when fumes are to be sucked from open tanks. Various Types of Hoods :

Canopy Hoods, Lip Hoods, Side Hoods
Push- Pull Hoods

PP / HDPE/ FRP STIRRER

Packed Column - Horizontal/Vertical Contaminants are removed on contact with counter current scrubbing liquid within the packed bed Scrubber. Selection of suitable type & size of Packing, Column diameter as well as Gas flooding of the tower. The performance of the scrubber is totally dependent on it.
